

Swiss-quality markings & coatings

BASCOLin COLD SPRAY PLASTIC: BETTER VISIBILITY AND SAFETY FOR ROAD USERS

Surface markings play a pivotal role in ensuring safety on the roads by guiding pedestrians, cyclists, cars and buses along the safest routes for them to take. They are particularly useful in ensuring that drivers are on the right track when conditions are foggy, wet and dark. Lines marked on the road surface designate different lanes and directions. They represent an effective and economical method of controlling vehicle flows and fulfil this purpose together with other traffic guidance systems.

TECHNOLOGICAL DESCRIPTION

BASCOLin 2-component cold spray plastic is solvent-free and based on reactive methacrylate resins. It can be used for all forms of permanent surface marking and is intended for mechanical spray application (low-pressure or airless).

FIELDS OF APPLICATION

BASCOLin is suitable for use on both asphalt and concrete surfaces, for markings on highways, roads and other areas in the public and private sectors. This cold spray plastic enjoys a virtually unlimited range of applications and is ideal for the permanent marking of edge and centre lines and pedestrian crossings.

YOUR ADVANTAGES AT A GLANCE

- **Solvent-free**
- **Fast mechanical application**
- **Rapid trafficability**
- **Stable quality for two to three years (depending on traffic volume and thickness of coat)**
- **Weather-resistant**

PRODUCT PROFILE

| | |
|--|--|
| <i>Tested in accordance with / in:</i> | BASt, Aetec, BG, PL, RC |
| <i>Substrates:</i> | Asphalt and concrete |
| <i>Surface treatment:</i> | Depending on substrate. Further information in technical data sheet |
| <i>Application:</i> | Airless and atomisation |
| <i>Colours:</i> | White, yellow, other colours (RAL) on request |
| <i>Special properties:</i> | <ul style="list-style-type: none"> • Durable system • Variety of uses • Outstanding LCA • Can be used with 98/2, drop-on glass beads and Basler On Line System |

BASLER LACKE AG – MARKINGS AND FLOORINGS FOR MORE SAFETY.

As a manufacturer and provider of road marking, flooring and sealing materials to enhance road safety and building protection, we have been attaching paramount importance to the consistently high quality of our products since 1933. We collaborate closely with our customers and partners and pride ourselves on our flexibility and innovative products. We provide comprehensive system solutions in the realms of road markings, surface markings and floorings. We are always pleased to elaborate custom-tailored solutions on request and with our customers both in Switzerland and abroad.

Headquartered in Buchs, Switzerland, Basler Lacke AG is one of the eight brands that comprise the Berlac Group, a globally-active group of medium-sized companies committed to the development and manufacture of top-flight solutions for finishing and protecting surfaces and for colouring plastics.
