

## **BASCOrep / BASCOrep ready mix PATCHING AND FILLING GROUT: FOR RAPID AND DURABLE REPAIRS**

Potholes and loose or protruding manhole covers are potential traffic hazards. Prompt repair can prevent accidents and falls. Using **BASCOrep** products, defects such as these can be repaired quickly, economically and durably.

### **TECHNOLOGICAL DESCRIPTION**

**BASCOrep** and **BASCOrep ready mix** are solvent-free 2-component cold-plastic grouts based on reactive methacrylate resins. They are designed for universal use and durable repairs. **BASCOrep ready mix** is a ready-to-use product that contains a specified quantity of quartz sand. No additional admixture is necessary on site.

### **FIELDS OF APPLICATION**

**BASCOrep** products excel as long-lasting, abrasion-resistant and weather-resistant fillers with which protrusions such as manhole covers, offsets, etc. can be smoothly transitioned to the surrounding surface. Even manholes or small potholes can be filled.

### **YOUR ADVANTAGES AT A GLANCE**

- Solvent free
- Fast curing for minimum traffic interruption
- Durable repairs
- High elasticity
- Good resistance to de-icing salts
- Very good price/performance ratio
