SPRAY PAINTS FOR INDOOR MARKINGS: FOR SAFETY IN THE WORK PLACE

A variety of different users are constantly on the move in logistics centres, warehouses and industrial buildings. To ensure their safety, traffic routes must be marked out with a product that meets rigorous demands. Mechanical and chemical resistance, very high adhesive properties and low susceptibility to dirt coupled with a skid-resistant surface finish guarantee a perfect result every time.

TECHNOLOGICAL DESCRIPTION

Our high-performance **BASCOdur** and **BASCOpaint** 2-component paints are based on modified polyurethane or epoxy resins. The products can be applied by spray or roller. In addition, our top-quality **BASCOdur protect** clear lacquer can be used where easy cleaning is necessary and to provide the marking with a transparent shiny seal.

FIELDS OF APPLICATION

BASCOdur and **BASCOpaint** are particularly suitable for floorings in industrial buildings and warehouses, workshops and garages. If required, granulate can be added to give the markings improved skid resistance. In cold areas we recommend **BASCOdur cool** for markings. This 2-component PU-paint was developed especially for the use in cooler and freezer rooms. The product is hardening quickly also in case of very low temperatures.

YOUR ADVANTAGES AT A GLANCE

- Very high mechanical resistance
- Very high chemical resistance
- Good adhesive properties
- Low susceptibility to dirt

PRODUCT PROFILE

Tested in accordance with / in:	<ul style="list-style-type: none"> • BASCOpaint (formerly Signalin) BAST, • BASCOdur Eco Institut
Substrates:	Concrete, synthetic resin modified concrete floors, synthetic resin floors and seals based on epoxide, acrylic or polyurethane, other substrates subject to clarification
Surface treatment:	Depending on substrate. Further information in technical data sheet
Application:	Spray, roller
Coverage:	approx. 300 g per square metre
Colours:	White, traffic yellow, traffic red, black, other colours (RAL) on request
Special properties:	<ul style="list-style-type: none"> • Durable system • Variety of uses • Good price-performance ratio

BASLER LACKE AG – MARKINGS AND FLOORINGS FOR MORE SAFETY.

As a manufacturer and provider of road marking, flooring and sealing materials to enhance road safety and building protection, we have been attaching paramount importance to the consistently high quality of our products since 1933. We collaborate closely with our customers and partners and pride ourselves on our flexibility and innovative products. We provide comprehensive system solutions in the realms of road markings, surface markings and floorings. We are always pleased to elaborate custom-tailored solutions on request and with our customers both in Switzerland and abroad.

Headquartered in Buchs, Switzerland, Basler Lacke AG is one of the eight brands that comprise the Berlac Group, a globally-active group of medium-sized companies committed to the development and manufacture of top-flight solutions for finishing and protecting surfaces and for colouring plastics.
