New Ways in Surface Coating

APPLIED SYSTEM

BASCO®paint M66
2-component high solid paint

CERTIFICATION

BASCO®paint:

- BASt

CONSUMPTION

- center line, mechanical spray application
width of marking line 100mm, layer thickness 400my = 600g/m²
- edge line, diagonal stripe, angle, chevron etc., mechanical spray application
width of marking line 200mm, layer thickness 400my = 600g/m²
- diagonal stripe, angle, chevron etc., hand application and using a roller
width of marking line 400mm, layer thickness 400my = 600g/m²

ADVANTAGES OF BASCO®paint

- thin layer system
- can be applied directly on concrete, no primer needed
- low consumption
- lowered dirt pick up
- can be combined with anti-blackening top coat
- fast curing times and at the same time very long pot life
- easy to apply, can be applied manually
- low total cost of ownership
- easy and inexpensive re-lining with BASCO®paint M66
